International Credit Union Day

On October 21, credit union members worldwide will join together to celebrate the benefits of membership!

Unlike other financial institutions, credit unions are not-for-profit, democratically controlled, volunteer-run, member-owned cooperatives. They exist to serve their members and that level of service remains high even during the toughest times. Credit unions provide value to their members with low cost services and by returning earnings in the form of lower loan rates, higher interest rates and minimal service or transaction fees.

Help us celebrate, we will have coffee, & cookies all week! *Don't forget to sign up for our drawing!*
